1 Expert, individualized care
Thera's individualized care program is guided by Pelvic Health Specialists, all of whom have Doctor of Physical Therapy degrees.

2 Safe, intravaginal pod
Thera's safe, comfortable, non-invasive pod is designed to gently stimulate pelvic floor muscles. It's encased in medical-grade silicone and provides a safe, effective way to address pelvic floor issues.

3 Personalized digital therapy
Thera's digital therapy program is designed to help women tackle stinging, dryness and sores.

4 Evidence-based innovation
Thera's digital therapy program is the first of its kind to be approved by the Food and Drug Administration (FDA).
